

Employee Homeownership Promotion Program

UAMS is happy to present the Student Homeownership Promotion Program. The program will include targeted financial educational classes, free tax preparation with savings promotion, housing/credit counseling and eHome America Homebuyers' education course through our partner lending institution, Southern Bancorp Community Partners.

Employees meeting the eligibility criteria who are ready to pursue homeownership may also qualify for down payment assistance. Down payment assistance will be offered through a 2:1 match, with individuals saving \$1,000 through an individual development account qualifying for a \$2,000 match. Down payment assistance for homeownership will be restricted to individuals purchasing homes for domicile in the area south of I-630 between University Avenue, Asher/Wright Avenue, and Chester Street.

The eligibility guidelines for the program are:

- Employee total income of \$100,000 or less
- Minimum of 6 months as UAMS employee
- Current residence in Central Arkansas.

Contact UAMSCommunityInitiatives@uams.edu for additional program information or counselors@southernpartners.org to determine your point of entry to the program.

This initiative is one of the many projects that aligns with the UAMS Vision 2029 plan to be the employer of choice in Arkansas. It is focused on providing UAMS employees who want to own a home the educational tools and support needed to make their dream a reality.
