

## **CAMPUS NOTIFICATION OF POTENTIAL REDEPLOYMENT**

Due to the current public health emergency, leadership continues to monitor staffing needs, work schedules, and duty assignments, which may temporarily change to guarantee we are providing the best health care possible to all Arkansans. To do so, UAMS is exploring redeployment options. Employees may be redeployed to other areas of need for which they have the knowledge, skills and abilities, or can be trained. Leaders will work directly with their staff if redeployment is needed. We appreciate your patience and flexibility during this unprecedented time. A reference to the need to make changes to employee's work schedules for emergency situations can be found [here](#).
