

How do I read my 2017 UAMS W-2?

Q & A

Question: Why doesn't the amount in Box 1 match the "YTD Earnings" listed on the bottom of my final 2017 paycheck?

Answer: Box 1 excludes pre-tax deductions, such as tax-deferred retirement contributions, pre-tax medical, dental and vision premiums, flexible spending account contributions, and parking deductions.

Question: Why doesn't Box 1 match Box 3 and Box 5?

Answer: Box 3 and Box 5 include your tax-deferred retirement contributions. Box 1 does not.

Question: Is there a simple explanation for what is in each box of my W-2?

Answer: Here is a brief explanation of what is in each box.

Box 1: These are your earnings/wages minus all of your pre-tax deductions. If you contributed on a tax-deferred basis to retirement or had any pre-tax benefits, this will not match your year-to-date earnings on your final paycheck. It will also not match if you are a foreign national with a tax treaty that reduces your wages subject to federal income tax withholding.

Box 2: This is how much federal income tax was withheld from your paychecks throughout the year and should match "Federal Withholding Tax" on your final 2017 paycheck.

Box 3: These are your wages that are subject to Social Security tax. This is generally your wages minus all of your pre-tax benefits (except retirement) up to a maximum of \$127,200. If you made more than \$127,200 or had any pre-tax benefits, this will not match your year-to-date earnings on your final 2017 paycheck.

Box 4: This is how much Social Security tax was withheld from your paycheck and should match "Fed EE Social Security" on your final 2017 paycheck. This equals box 3 times 6.2%. For 2017, this amount should not exceed \$7,886.40 ($\$127,200 \times 6.2\%$).

Box 5: These are your wages that are subject to Medicare taxes. This is generally your wages minus all of your pre-tax benefits (except retirement). Wages above \$200,000 are taxed an additional 0.9%. There is no limit on the amount taxed for Medicare. If you had any pre-tax benefits, this will not match your year-to-date earnings on your final paycheck.

Box 6: This is how much Medicare tax was withheld from your paycheck and should match "Fed EE Medicare" on your final 2017 paycheck. This equals box 5 times 1.45%. If wages are in excess of \$200,000 then add 0.9% for the additional Medicare tax.

Boxes 7, 8: blank, not applicable

Box 9: blank, not applicable

Box 10: This is the amount that you contributed to the flexible spending account for dependent care (daycare). It should match the "Dependent Care FSA" amount on your final 2017 check.

Box 11: blank, not applicable

Box 12 (a, b, c, d): There could be several codes and amounts listed here.

- "DD" shows the premiums you and UAMS paid for your **medical insurance**. This appeared on W-2's for the first time in 2012. It is information only and is not taxable.
- "E" shows how much you contributed to your **403(b)** retirement plan on a **voluntary tax-deferred** basis and should match your pre-tax 403(b) contributions on your final 2017 check. Your "403b Required Pre-Tax" contribution is excluded from this amount.
- "G" shows how much you contributed to your **457(b)** retirement plan on a tax-deferred basis and should match your pre-tax 457(b) contributions on your final 2017 paycheck.
- "BB" shows how much you contributed to your **Roth 403(b)** retirement plan and should match your Roth contributions on your final 2017 paycheck.

Box 13: There is an X under Retirement plan if you participated in any retirement plan at UAMS.

Box 14: This shows any imputed income or non-cash taxable benefit you received, such as taxable Faculty Group Practice (FGP) benefits. This is also where the **required** retirement contribution (which changed from 1% to 2% in July 2017) is reported as "Required EE 403b"

Box 15: This shows the state to which we submitted state income tax (normally Arkansas.)

Box 16: This shows your state taxable wages. This should match Box 1 unless you are a foreign national covered under a federal tax treaty.

Box 17: This shows how much state income tax was withheld. It should match "AR Withholding Tax" on your final 2017 paycheck.

Question: Is there anything I can do now that will help me next year at tax time so I won't owe money like I did this year?

Answer: Make sure you are contributing the maximum that you can afford to the retirement plan. This will lower your taxable income. The pre-tax limits for 2018 are \$37,000 if you are under 50

and \$49,000 if you are 50 or over. You may contribute even if you are not benefits eligible or if you are participating in an alternative State retirement system. To start contributing to retirement or to increase your contribution, complete a [Voluntary Salary Deferral Agreement form](#).

You may also need to have more federal or state tax withheld out of each check. You may change your federal and/or state tax withholdings online via Employee Self Service. Forms are also available in Human Resources, 501-686-5650. You may still end up owing next year if you do not withhold enough throughout this year.

For more information about taxes, please visit the IRS website at www.irs.gov.

[Employee Self Service](#) (ESS) – Via ESS you can create, change, and display the information included on the W-4 form, update direct deposit information, view your benefits, view sick and vacation balances, print your current and prior check stubs, etc. You must know your domain login and password.

If you have other questions about your W-2, please contact HR Employee Services at 501-686-5650.

For a W-2 reprint send an email to askhr@uams.edu or call UAMS Employee Services at (501) 686-5650 or complete the [reprint request form](#) and fax to 501-686-5386.
