

To Enable Pop-Ups in Chrome:

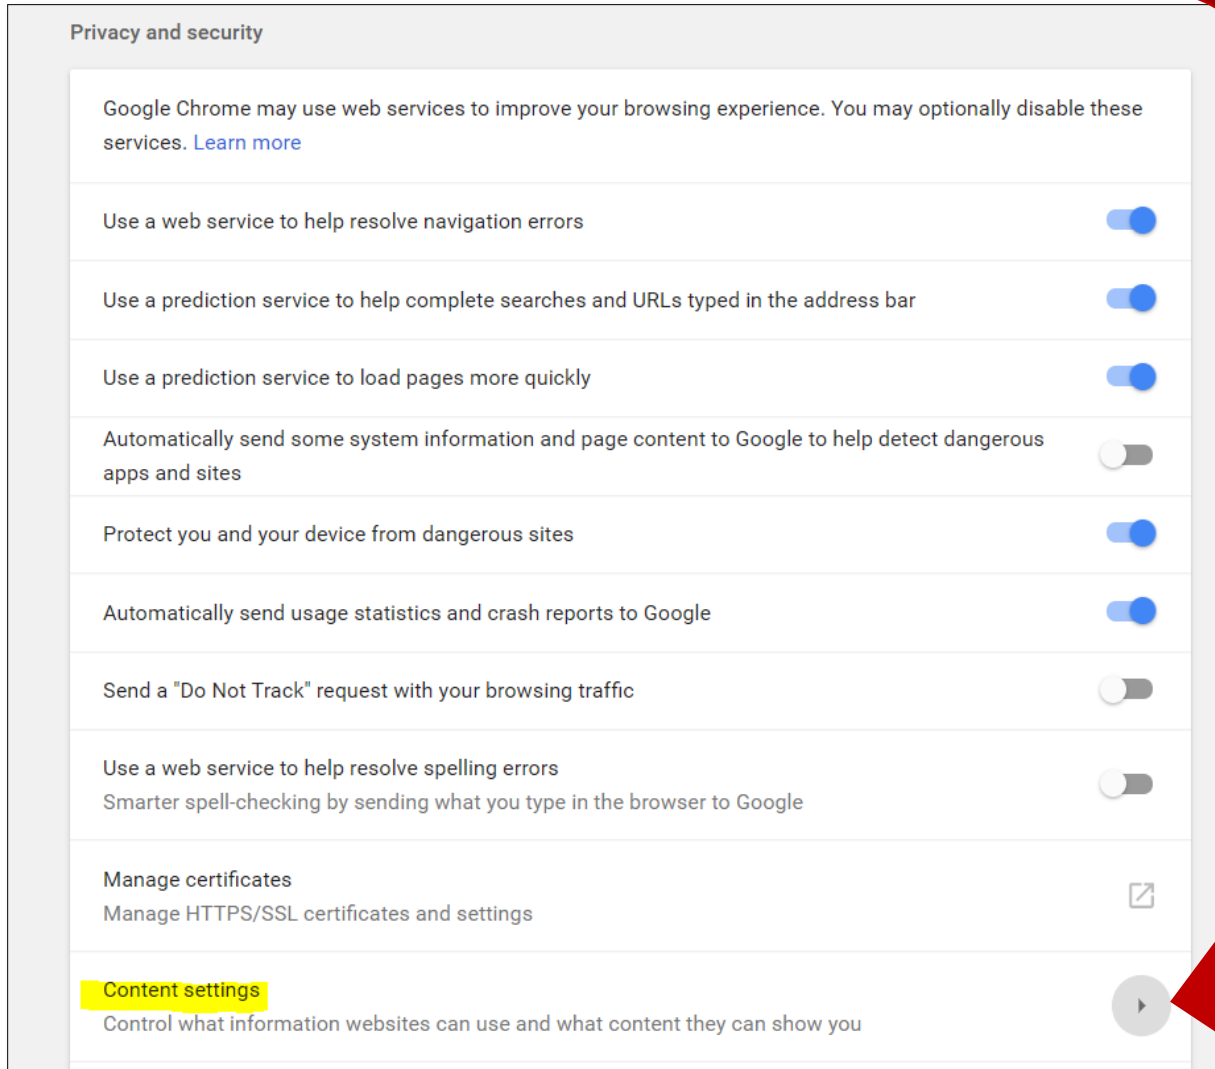

Click on the ellipses on the far right hand corner of your screen as shown here and then click on settings:

Scroll to the bottom of the Settings page and click on the advanced drop down to expand the menu under advanced settings:

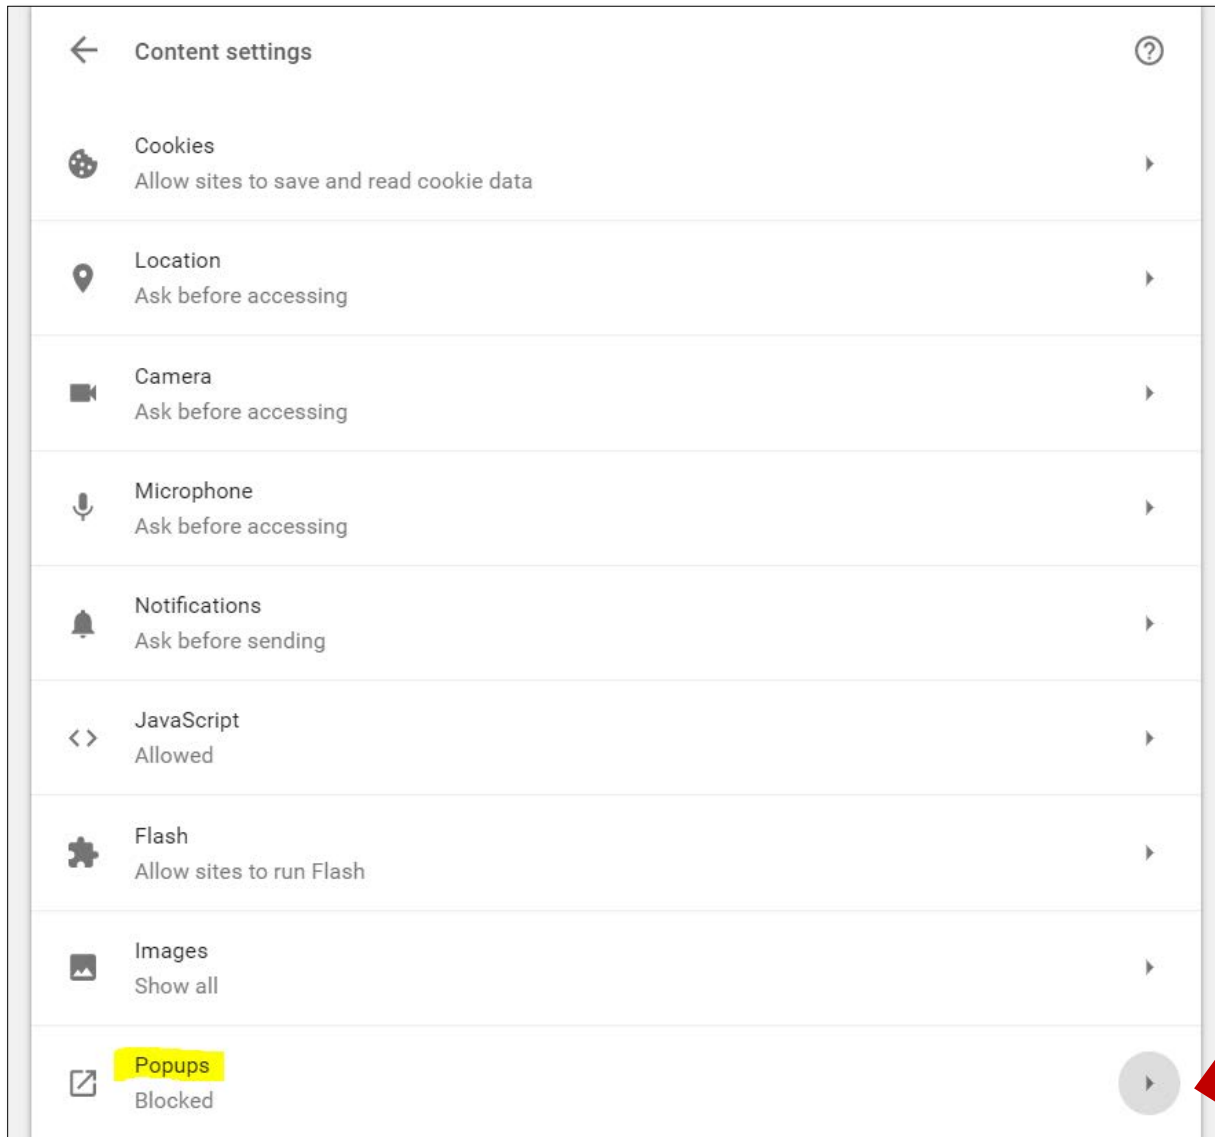

Scroll down the Page to Privacy and Security and click on the Content Settings arrow and expand.

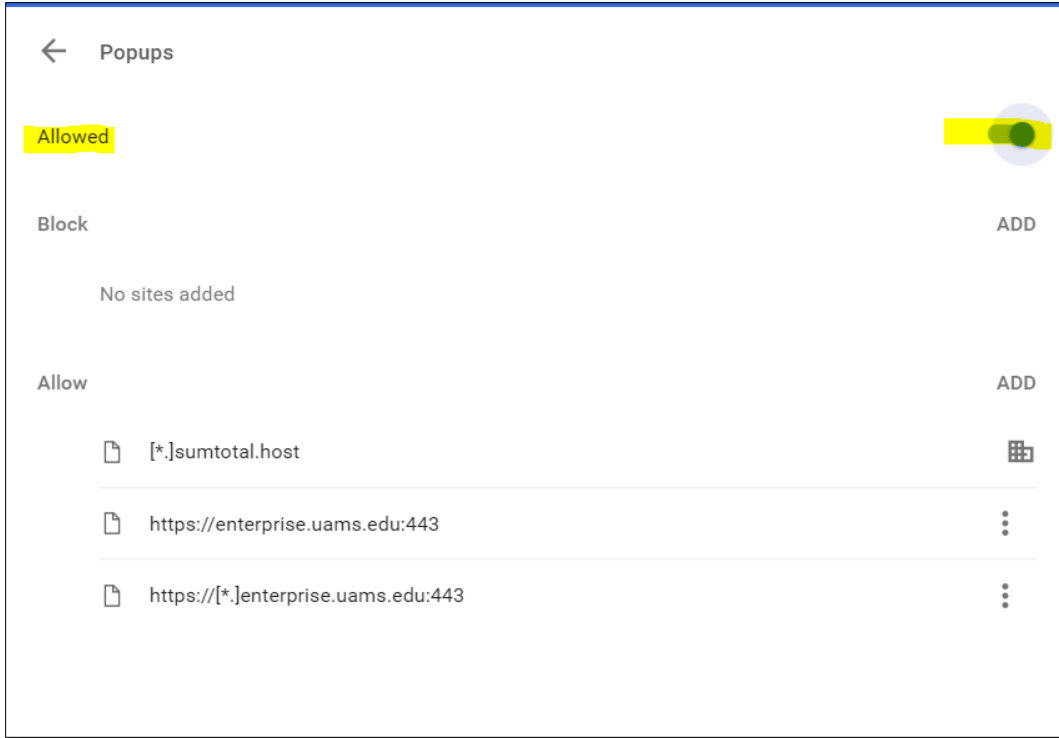

The image shows a screenshot of the 'Privacy and security' settings page in a web browser. The page title is 'Privacy and security'. Below the title, there is a paragraph: 'Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)'. The settings are listed in a table-like format with toggle switches on the right. The 'Content settings' option is highlighted with a yellow background and has a right-pointing arrow icon next to it. A large red curved arrow points from the top right towards the 'Content settings' arrow icon.

Setting	Toggle
Use a web service to help resolve navigation errors	On (Blue)
Use a prediction service to help complete searches and URLs typed in the address bar	On (Blue)
Use a prediction service to load pages more quickly	On (Blue)
Automatically send some system information and page content to Google to help detect dangerous apps and sites	Off (Grey)
Protect you and your device from dangerous sites	On (Blue)
Automatically send usage statistics and crash reports to Google	On (Blue)
Send a "Do Not Track" request with your browsing traffic	Off (Grey)
Use a web service to help resolve spelling errors Smarter spell-checking by sending what you type in the browser to Google	Off (Grey)
Manage certificates Manage HTTPS/SSL certificates and settings	External link icon
Content settings Control what information websites can use and what content they can show you	Right-pointing arrow icon

To change your pop-up setting to Allowed, click on the drop down arrow next to Pop-Ups to expand your options:

Next, simply click on the toggle switch moving from Blocked to Allowed.

To exit Google settings, simply click the X in the upper right hand corner to close the browser window. Your settings have now been saved.
